Welcome!

The Water Resources Technical Committee (WRTC) was created on April 6, 1995 as a technical subcommittee of the Arizona Society of Civil Engineers (AzSCE).

Committee's Mission:

"Provide an open forum for discussing technical water resource issues within Arizona."

Objectives of the WRTC include:

- ④ Conducting technical education programs on water resource topics,
- ④ Sponsoring activities that serve the need of water resource professionals,
- ④ Furthering public understanding of the field of water resources, hydraulics, and environmental engineering,
- ④ Coordinating local water resource related functions with other related organizations,
- ④ Review and comment on state and local legislation related to water resource issues.

The Committee meets monthly to hear presentations and discuss technical water resource issues, studies, and projects. Field trips are occasionally offered to allow participants to witness firsthand how local water resource issues and challenges are being addressed.

Accomplishments

Past Committee Activities:

- ④ Monthly technical presentations on current water resource topics,
- ④ Field trips to local water resource projects,

- ④ Coordination of technical sessions at AzSCE conferences,
- ④ Assisting other local water resource organizations with their functions and workshops,
- ④ Serving as local host in 1999 for the American Society of Civil Engineers (ASCE) Water Resources Planning and Management Division's 26th Annual Conference, held in Tempe.
- ④ Assisting with local ASCE sponsored workshops on Urban Stormwater Management, HECRAS, etc.

Bylaws

The group's bylaws were adopted in 1995 and are available from the Committee's Secretary or can be downloaded from the AzSCE Web Site. They address for the following:

- ④ **Officers:** Chairman, Vice Chair, Secretary, and Past Chairman.
- ④ **Membership:** Any subscribing member of the AzSCE who submits a written request for membership shall be considered a member.
- ④ **Annual Business Meeting:** Held on or before October 31.

Membership

Because the WRTC is sanctioned by the ASCE, committee membership requires membership in ASCE. However, non-ASCE members are welcome to attend committee meetings and events. There are no dues, other than those normally paid by members of the ASCE. To request an ASCE membership application, please contact the ASCE at (800) 548-2723.

To Become a Member of the WRTC:

To become a member of the AzSCE WRTC, please complete the following information and fax it to the committee Secretary, Chris Miranda, Fax# 602-956-4703. Alternatively, this form can be completed on-line at www.azsce.org. If you are not an ASCE member, please complete the form on the next page.
